

Electrical Requirements

Electrical Requirements Form

Please note that any outlet requests that exceed two, will be reviewed and you may be required to source alternate power supply at your own expense.

Outlet	Outage (ex. 10 or 15amps)	Equipment	Tested & Tagged? (Y/N)
The first two outlets will be granted, there after requirements will need to be reviewed

Test and Tagged

I understand all my cables must be tested and tagged prior to the event, within 3 months of the event date.

This is my responsibility. I understand that if my cables are not correctly tagged they will fail the electrical compliance check performed by the electrician prior to the event opening and therefore I will be unable to trade at this event.
