

What is a Men's Shed?

Inspired by the backyard shed, an icon in Australian culture, the *Men's Sheds of Australia* is a movement to provide a place for people to come together for socialisation and to be a part of their community.

No Shed is the same. Some build, others cook, and some, may just be a place for people to come in for a cuppa and a chat. However, the intent is constant – Men's Sheds are a place for people to not feel alone.

For many of us, as we get older, the number of mates we have becomes less and less. This transition can feel quite isolating for many.

Men's Sheds are a reminder that you're not alone in this, and that as we get older, we can still find great friends.
